

EQUUS FIXPLUS PEDESTAL AND TILE SUPPORT SYSTEM

A series of fully customisable pedestals for
raised floor applications

MARCH 2024

BASIC SERIES

BS60 Basic Pedestal Set

Used in raised floor applications with ceramic, natural stone and composite natural materials.

BS60-03
(50-75mm)

BS60-04
(73-110mm)

BASIC SELF LEVELLING SERIES

SL60 Basic Self Levelling Pedestal

A self levelling system used in tile applications for raised floors. Allows auto slope correction on surfaces up to a maximum 5% gradient.

SL60-01
(42-48mm)

SL60-02
(48-60mm)

SL60-03
(60-85mm)

SL60-04
(83-120mm)

MAXI SELF LEVELLING SERIES

SL110 Maxi Self Levelling Pedestal

A self levelling system used in tile applications for raised floors. Allows auto slope correction on surfaces up to a maximum 5% gradient.

SL110-04
(85-135mm)

SL110-05
(130-180mm)

SL110-06
(180-228mm)

SL110-07
(224-272mm)

MAXI RAFT SELF LEVELLING SERIES

SLW110 Maxi Raft Self Levelling Pedestal

A self levelling system used in raised floors applications for wood and aluminium joists. This allows wooden and composite deck materials to be installed easily. Allows auto slope correction on surfaces up to a maximum 5% gradient.

SLW110-04
(85-135mm)

SLW110-05
(130-180mm)

SLW110-06
(180-228mm)

SLW110-07
(224-272mm)

ACCESSORIES

Basic Parallel Connector (Beam Joint)

Connected to the basic disk (1 or 2 pieces can be used), the basic parallel connector creates a connection for parallel, wooden or deck flooring to the pedestal feet. Compatible with BS60, SL60, SL110 and SLW110 Series.

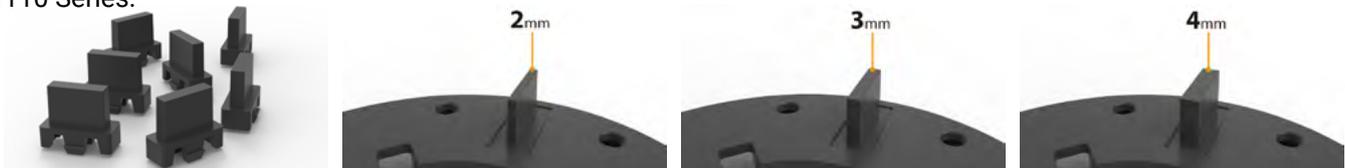

WC9801
Basic Parallel Connector

Replaceable Grout Tabs

2mm, 3mm and 4mm thick tabs can be inserted into and removed from the basic disc to connect tiles to the pedestal feet. For outdoor applications 4mm tabs are recommend to allow for heavy rain. Compatible with BS60, SL60, SL110 and SLW110 Series.

TC0002
(2mm)

TC003
(3mm)

TC004
(4mm)

Basic Disc and Rubber Shim

Basic disc for connection to basic parallel connector and 2mm-4mm tabs. The Rubber Shim is attached to the disc as a contact between the tiles/beams and the pedestal to prevent unwanted sounds. The Rubber shim can also be used to compensate for 1mm discrepancies between tiles. Compatible with BS60 Series

HC9801
Basic Rubber Shim

DC9801
Basic Disc

Basic & Maxi Pedestal Extensions

Extension sleeves used to raise the fixed modules to the desired size, they can be connected to fixed pedestals or added together. (Maximum recommended height 25cm for Basic Series). M060 Basic Extensions compatible with BS60 and SL60 Series. M110 Maxi Extensions compatible with SL110 and SLW110 Series.

M06050
(50mm)

M06075
(75mm)

M11095
(95mm)

25 cm

ACCESSORIES

Basic Adjustment Tool

Tool used to easily adjust pedestals after the installation of flooring materials. Compatible with BS60 Series

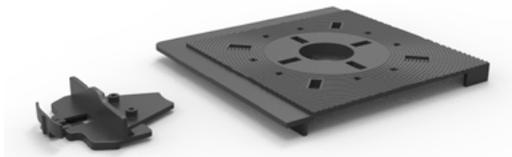

Adjustment Tool

Lateral Flooring Installation

Lateral Installation can be applied with a support and lateral disc. These accessories allow a lateral surface to be applied to a raised floor. Compatible with BS60, SL60, SL110 and SLW110 Series.

LD0002
Lateral Support

LD0001
Lateral Disc

Maxi Self Levelling Disc Pad

A self levelling disc for connection to basic parallel connector and 2mm-4mm tabs. Compatible with SL60, SL110 and SLW110 Series.

SLC001
Maxi SL Disc Pad

Maxi Raft Disc and Maxi Beam Joint Connector

Maxi raft disc pad and adjustable beam joint connector for use in raised floor applications using wood or aluminium joists. Beam joint connector is adjustable for desired length. Compatible with SL110 and SLW110 Series.

W14001
Maxi Raft Disc

W14002
Maxi Beam Joint

ACCESSORIES

SP-5 & SP-10 Flooring Supports

The SP-5 plate and SP-10 module allow raised floors ranging from just 10mm up to 30mm high.

The support is easily adjustable ranging from 10mm to 15mm high. If required, an additional 5 mm high is obtained by inserting SP-5 plate under the SP-10.

The SP-5 plates can also be mounted on top of each other to increase the height.

They are easily adjustable, highly durable and resistant to breakage.

Note: Cannot be used to build over 30mm high.

SP-5 and SP10 Flooring Supports

Grid Locker

Bumpers to be used between tiles and exterior walls, and held in place with self-adhesive designed for easy attachment. This solution not only protects cladding but also ensures efficient drainage.

Grid Locker

WHO ARE WE?

Equus Industries provides technical waterproofing solutions for Architects, Engineers, Property Managers, and Contractors in the building industry. One system does not fit all.

Equus can provide complete solutions, systems, specifications, technical support and warranties.
