## Level of assurance needed to demonstrate NZ Building Code Compliance

Supporting documentation should include self-assessment and technical information by manufacturer

Plytech Panels confirms that this minimum level of assurance has been met or exceeded by the following:

The following information has been provided by Plytech Panels demonstrating how this product complies with the [Building Product Information Requirements](#).

## Technical Statement

### Product Class

CLASS 1

### Product Description

Eurolite HPL is a lightweight Poplar plywood panel, expertly finished on both faces with a sleek white High Pressure Laminate (HPL). Designed to combine durability with aesthetics, its robust decorative surface ensures long-lasting performance in demanding environments. Ideal for applications where weight saving is essential, Eurolite HPL is perfect for interior projects such as cabinetry, furniture, and wall paneling, offering versatility and style without compromising on strength. Its smooth finish is easy to maintain, making it a practical choice for modern design solutions.

### Scope of use

- RV and transport interiors
- Boatbuilding interiors
- Furniture construction
- Custom joinery
- Lightweight cabinetry
- Retail and commercial fit-outs
- Exhibition and display panels
- Compact storage solutions

### New Zealand Building Code (NZBC)

The product will, if employed in accordance with the supplier's installation and maintenance requirements, assist with meeting the following provisions of the building code:

- **Clause B2 Durability:** Performance B2.3.1(c) Compliance Pathways. B2/AS1 Table 1.

### Evidence

The product meets the requirements set out in the following documents, or relevant parts of cited standards within the documents:

This product complies with the requirements of Clause B2.3.1(c) of the Building Code, demonstrating durability for a period of 5 years under normal maintenance conditions. Building elements covered by this clause, including linings, renewable protective coatings, are designed for easy access and replacement, ensuring minimal disruption. Any potential failure would be easily identifiable during normal use of the building, enabling timely maintenance or replacement. A warranty supporting this durability claim is available upon request.

### Supporting Evidence

The product has and can make available the following additional evidence to support the above statements:

## Product Criteria

### Design requirements

Suitable for interior use only and are not recommended in exposed, damp or wet conditions. Panels may warp or expand if not sealed.

### Installation requirements

masterspec partner

### Company Contact Details

Company: Plytech Panels  
Physical Address: 26 Business Parade North Highbrook AUCKLAND  
Postal Address: PO Box 204070 Highbrook AUCKLAND  
Telephone: 64 09 5735016  
Fax: 64 09 5735035  
Email: [lduffy@bigrivergroup.co.nz](mailto:lduffy@bigrivergroup.co.nz)  
Website: [www.plytech.co.nz](http://www.plytech.co.nz)

Panels must be installed by qualified tradesmen and handled with care. Prior to installation, the product must be stored inside, off the ground, in a dry, well-ventilated area away from extreme temperature fluctuations. It is important to protect the panels during storage by covering and protecting all parts that can be exposed to damage, light or moisture however, panels must not be left wrapped in a non-breathable material (i.e. plastic) for longer than 4 days. The panels must be stacked squarely on top of one another with a full cover sheet on top to avoid edge discolouration. Panels should not be exposed to natural light when being stored as wood is a natural material and changes over time when exposed to UV-light.

## Maintenance requirements

We recommend cleaning the panels when required with a warm damp cloth. Do not use any solvents or abrasive cleaners. Clean off any dust that accumulates immediately.

## Warrantees

5 Year Warranty - Subject to the terms of this Warranty, Big River Group (NZ) Ltd – ('Plytech Panels') warrants that, for the Warranty Period (as set out in Schedule 1) will be free from defects as a direct result of manufacture.
